## STATEWIDE CENTRAL SERVICE COST ALLOCATION PLAN

ACTUAL 2003

OFFICE OF ADMINISTRATION  
DIVISION OF ACCOUNTING

**CERTIFICATION FOR THE  
STATE OF MISSOURI  
STATEWIDE COST ALLOCATION PLAN**

**Certification by the Responsible Official**

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in this fiscal year 2003 proposal to establish cost allocations or billings for fiscal year 2005 are allowable in accordance with the requirements of OMB Circular A-87, "Cost Principles for State and Local Governments," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of cost have been accounted for consistently.

I declare that the foregoing is true and correct.

STATE OF MISSOURI  
STATEWIDE COST ALLOCATION PLAN

Scope of Plan

---

The Missouri Statewide Cost Allocation Plan is an annual report prepared by the Office of Administration, Division of Accounting. The procedures and guidelines for the preparation of this report are contained in the United States Office of Management and Budget Circular A-87, "Cost Principles for State, Local and Indian Tribal Governments." The plan provides an actual allocation of state central service indirect costs with a roll-forward adjustment to provide a fixed allocation for each state agency for Fiscal Year 2005.

The fixed allocations for the Fiscal Year 2005 Missouri Statewide Cost Allocation Plan have been calculated by subtracting the Actual Fiscal Year 2001 allocations from the Actual Fiscal Year 2003 carry-forward allocations and adding the differences back to the Actual Fiscal Year 2003 allocations.

The cost pools included in this plan are as follows:

- Office of Administration - Building Use
- Office of Administration - Facilities Management
- Office of Administration - Building Rental
- Office of Administration - Insurance
- Office of Administration - Workers' Compensation
- Office of Administration - Budget & Planning
- Office of Administration - Accounting & Payroll
- Office of Administration - Personnel
- Office of Administration - Purchasing
- Office of Administration - General Services
- Office of the State Treasurer - Disbursements
- Office of the Secretary of State - Records Management
- Department of Public Safety - Security
- Department of Revenue - Cashier
- Office of Administration - Information Services

For all cost pools included in this plan, only the costs incurred from state funds have been allocated. Federal fund expenditures have not been included in the original total cost for each cost pool. Allocations have been made to state agencies irregardless of their eligibility for reimbursement of central administrative indirect costs.

This plan was prepared by the Office of Administration, Division of Accounting. All inquiries should be directed to Ms. Lynn Cannon, Division of Accounting at (573) 751-1899.

**EQUIPMENT USE**

**NATURE AND EXTENT OF SERVICES**

An equipment use charge is allowable for plan purposes in lieu of depreciation for equipment used for administrative purposes. Equipment items are recorded at acquisition cost. Purchases of new equipment and dispositions of obsolete equipment are recorded as they occur.

Prior to the State fiscal year 1985, equipment acquisitions were treated as expenditures in the year purchased (for purposes of cost allocation). Therefore, no acquisitions before fiscal year 1985 are included in the calculation of the use charge. Equipment inventory totals for the fiscal years 1985 - 2003 from OA divisions were provided by a SAM II Data Warehouse Query of the Fixed Asset Subsystem tables.

Costs are allocated to divisions of the Office of Administration based on the inventory value of recorded equipment.

An equipment use charge has been included for equipment of the Board of Public Buildings for those buildings whose costs are allocated in the plan. The equipment use charge has been allocated to the Board of Public Buildings I and II schedules of the plan for reallocation to occupying departments. Equipment acquisition costs have been obtained from the general ledgers.

**STATE OF MISSOURI**

**RETIREMENT/GROUP INSURANCE**

**NATURE AND EXTENT OF SERVICES**

The costs of State contributions to the Employee Retirement System including contributions to the Group Health Insurance Fund and the Employee Deferred Compensation Plan are charged to a central account under the Office of Administration. Costs are not included in departmental budgets. Actual costs of State contributions have been allocated to each central service department, with the exception of the Board of Public Buildings I and II. Costs of non-central service departments and the Board of Public Buildings I and II have been deducted prior to allocation, so as to avoid a duplication of billing for fringe benefit costs which may be directly charged.

Costs of employee retirement, group health and life insurance (State paid portion) were obtained from reports run from the SAM II HR Payroll System. Costs include long term disability insurance payments. Costs of Deferred Compensation (State paid portion) were also obtained from SAM II HR Payroll reports. A calculation of the central service total was made by deducting the recorded expenditures for all non-central service departments and all Section II costs from the Statewide appropriation expenditure total. These amounts are shown as cost adjustments on Schedules 7.2 and 7.3.

**NATURE AND EXTENT OF SERVICES**

The cost of State contributions to the Social Security System are charged to a central account under the Office of Administration. Costs are not included in departmental budgets. Actual cost of State contributions have been allocated to each central service department, with the exception of the Board of Public Buildings I and II. Costs of non-central service departments and Board of Public Buildings I and II have been deducted prior to allocation, to avoid a duplication of billing for fringe benefit costs which may be directly charged.

Costs of the State paid portion of Social Security were obtained from SAM II HR Payroll reports. A calculation of the central services total was made by deducting the recorded expenditures for all non-central services departments and all Section II costs from the Statewide appropriation expenditure total. These amounts are shown as cost adjustments on Schedules 8.2 and 8.3.

STATE OF MISSOURI

INFORMATION SERVICES

NATURE AND EXTENT OF SERVICES

The costs of State data processing services and telecommunications are included in this function. Most of the expenses of these services are included in the Section II sub-pool. The general and administration costs are allocated to each sub-pool based on functional cost (allowable expenses) on Schedule 16.3. These costs are from the Finance and Administration organization code.

Costs have been functionalized and allocated as follows:

System Development. Costs of developing Statewide systems operated by the Office of Administration have been allocated to the division operating each system.

Systems Development - SAM II. Beginning in FY 2000, SAM II costs are included here. They were previously picked up in the Budget and Planning SWCAP section under the Systems Development cost pool. \$30,000,000 of FY 1999 and 2000 SAM II actual costs are being capitalized evenly over 5 years from FY 2000 through 2004 and have been allocated to each division based on number of payment documents and paychecks processed.

Section II. These costs are disallowed and are allocated to "All Other".

Other Costs. The Education Center is included as Other. These costs are disallowed and are allocated to "All Other".

STATE OF MISSOURI

ACCOUNTING

NATURE AND EXTENT OF SERVICES

The Division of Accounting is responsible for payroll and accounting services for all State agencies. Costs have been functionalized and allocated as follows:

Payroll. Payroll preparation, employee tax administration, payroll cost distribution, social security cost administration and related expenses have been allocated based on the number of paychecks issued.

Accounting. Cost of accounts payable maintenance of accounting records, interdepartmental transfers, grants accounting and related costs have been allocated based on the number of payment voucher document transactions processed for each department.

The costs of fund accounting have been disallowed as general government. The functional cost pools allocated within Accounting have been determined by means of a salary analysis. In this analysis the various levels of supervision have been appropriately allocated to the benefiting functions.

**STATE OF MISSOURI**

**TREASURER**

**NATURE AND EXTENT OF SERVICES**

The State Treasurer is responsible for disbursement of State funds, reconciliation of bank accounts, redemption of warrants, and related activities. These costs are allowable for plan purposes and have been allocated based on the number of warrants issued for each department (including paychecks, accounts payable, welfare funds, child support payments and tax refunds). Since the count of regular warrants ("A" warrants) is not available by Department, the number of payment voucher document transactions is included in the total count of all warrants.

The other costs of the Treasurer's Office are considered general government and have been allocated to "All Other".

**EQUIPMENT USE**

**NATURE AND EXTENT OF SERVICES**

An equipment use charge is allowable for plan purposes in lieu of depreciation for equipment used for administrative purposes. Equipment items are recorded at acquisition cost. Purchases of new equipment and dispositions of obsolete equipment are recorded as they occur.

Prior to the State fiscal year 1985, equipment acquisitions were treated as expenditures in the year purchased (for purposes of cost allocation). Therefore, no acquisitions before fiscal year 1985 are included in the calculation of the use charge. Equipment inventory totals for the fiscal years 1985 - 2003 from OA divisions were provided by a SAM II Data Warehouse Query of the Fixed Asset Subsystem tables.

Costs are allocated to divisions of the Office of Administration based on the inventory value of recorded equipment.

An equipment use charge has been included for equipment of the Board of Public Buildings for those buildings whose costs are allocated in the plan. The equipment use charge has been allocated to the Board of Public Buildings I and II schedules of the plan for reallocation to occupying departments. Equipment acquisition costs have been obtained from the general ledgers.

**NATURE AND EXTENT OF SERVICES**

The costs of State contributions to the Employee Retirement System including contributions to the Group Health Insurance Fund and the Employee Deferred Compensation Plan are charged to a central account under the Office of Administration. Costs are not included in departmental budgets. Actual costs of State contributions have been allocated to each central service department, with the exception of the Board of Public Buildings I and II. Costs of non-central service departments and the Board of Public Buildings I and II have been deducted prior to allocation, so as to avoid a duplication of billing for fringe benefit costs which may be directly charged.

Costs of employee retirement, group health and life insurance (State paid portion) were obtained from reports run from the SAM II HR Payroll System. Costs include long term disability insurance payments. Costs of Deferred Compensation (State paid portion) were also obtained from SAM II HR Payroll reports. A calculation of the central service total was made by deducting the recorded expenditures for all non-central service departments and all Section II costs from the Statewide appropriation expenditure total. These amounts are shown as cost adjustments on Schedules 7.2 and 7.3.

BUILDING RENTAL

NATURE AND EXTENT OF SERVICES

The cost of rental office space is charged to a central account under the Division of Facilities Management of the Office of Administration. Costs of leased space and utilities are budgeted to each occupant department. Actual costs are allocated to each central service department based on 2003 actual building rental costs. Building rental costs for the benefiting departments are excluded to avoid a duplication of costs.

STATE OF MISSOURI

INFORMATION SERVICES

NATURE AND EXTENT OF SERVICES

The costs of State data processing services and telecommunications are included in this function. Most of the expenses of these services are included in the Section II sub-pool. The general and administration costs are allocated to each sub-pool based on functional cost (allowable expenses) on Schedule 16.3. These costs are from the Finance and Administration organization code.

Costs have been functionalized and allocated as follows:

System Development. Costs of developing Statewide systems operated by the Office of Administration have been allocated to the division operating each system.

Systems Development - SAM II. Beginning in FY 2000, SAM II costs are included here. They were previously picked up in the Budget and Planning SWCAP section under the Systems Development cost pool. \$30,000,000 of FY 1999 and 2000 SAM II actual costs are being capitalized evenly over 5 years from FY 2000 through 2004 and have been allocated to each division based on number of payment documents and paychecks processed.

Office Automation. Administrative costs associated with Office Automation projects benefiting divisions of the Office of Administration are allocated to each division based on the number of workstations located there in FY 2003. For purposes of the carry forward allocation, Office Automation will remain in the Information Services section, since that is where the costs appeared in FY 2001.

Section II. These costs are disallowed and are allocated to "All Other".

Other Costs. The Education Center is included as Other. These costs are disallowed and are allocated to "All Other".

BUDGET AND PLANNING

NATURE AND EXTENT OF SERVICES

The Division of Budget and Planning is responsible for the preparation of the State budget. Its major responsibility is for providing technical assistance and support to the various State departments in the preparation of the various State and Federal budget documents which each must prepare to obtain funding for their programs. In addition, the Division assists departments in controlling program expenditures.

Costs of central budget preparation and Administrative Rules are unallowable and have been allocated to General Government. The remaining allowable budget and planning costs have been allocated to departments based on actual hours of service provided according to individual time sheets maintained by staff.

Costs of the Washington Office are considered general government and have been allocated to "All Other".

ACCOUNTING

NATURE AND EXTENT OF SERVICES

The Division of Accounting is responsible for payroll and accounting services for all State agencies. Costs have been functionalized and allocated as follows:

**Payroll.** Payroll preparation, employee tax administration, payroll cost distribution, social security cost administration and related expenses have been allocated based on the number of paychecks issued.

**Accounting.** Cost of accounts payable maintenance of accounting records, interdepartmental transfers, grants accounting and related costs have been allocated based on the number of payment voucher document transactions processed for each department.

The costs of fund accounting have been disallowed as general government. The functional cost pools allocated within Accounting have been determined by means of a salary analysis. In this analysis the various levels of supervision have been appropriately allocated to the benefiting functions.

STATE OF MISSOURI

TREASURER

NATURE AND EXTENT OF SERVICES

The State Treasurer is responsible for disbursement of State funds, reconciliation of bank accounts, redemption of warrants, and related activities. These costs are allowable for plan purposes and have been allocated based on the number of warrants issued for each department (including paychecks, accounts payable, welfare funds, child support payments and tax refunds). Since the count of regular warrants ("A" warrants) is not available by Department, the number of payment voucher document transactions is included in the total count of all warrants.

The other costs of the Treasurer's Office are considered general government and have been allocated to "All Other".
